■ My feedback

Group Rotterdam 🔼

Ba Wazir, Saeed S.S.S. - Belov, Bojidar B.B. - Dussel, Keano K.O.R. -Jacobs, Lucas L.L.G.T. - Nuenen, Jessie J. van - Roefs, Niels N.L.W. -Strijbos, Tom T.N.P.

Checkpoint 5

Retrospective 21-12-2022

Strijbos, Tom T.N.P. 22 days ago

When making changes to the database tables, it should be discussed with the whole group.

The impact of these changes should be thought about before the change actually happens and should find out what code is going to break.

When the presentation for the PO is made by Tom, it should be checked by the rest of the group.

Tom should also be a bit better prepared when it comes to questions from the PO, after the presentation.

Needs to have something in his hands during the presentation.

People are still arriving late.

When trying out B2C, we lost a lot of time, that could be spent elsewhere.

Professionality should be improved during working hours, as well as meeting hours.

Describe what goes well according to your teacher, what you should pay more attention to and what is your next step to achieve the learning outcomes...

Checkpoint 4 Retrospective 01-12-2022

Strijbos, Tom T.N.P. a month ago

Tom:

Has better knowledge about the overall progress about the progress of each person.

Takes the lead some more, but can still be more strict and bossy (too nice). Took more responsibilty than last sprint.

Clear about appointments made within the team.

Should be more clear while making retrospectives, so that they'll be easier to understand when looking back at them.

Lucas:

Doesn't talk in Dutch anymore, this makes sure everyone is involved in the conversations.

Much more involved with the group, speaks up more.

Delivering high quality

Saeed:

Managed to make MSgraph work with Niels, before the others in class.

Still very helpful to his teammates.

Sometimes thinks faster than he speaks.

Jessie:

During working hours, seems more focussed on her work.

Still tends to be late about 10 minutes.

Bojidar:

Caused as good as no overthinking this sprint, quite the improvement. Tends to be late a bit, but is trying to improve on this part.

Keano:

Should keep the whole team more updated on his progress.

Should work on the group project during group project hours, instead of individual project.

Should try to ask for help.

Niels:

Managed to make MSgraph work with Saeed, before the others in class.

Should form his own opinion and put it on the table some more.

Is very involved during meetings now though.

Should pay a bit more attention to coming on time.

Checkpoint 3 Retrospective 03-11-2022

Strijbos, Tom T.N.P. 2 months ago

The group:

The group is really getting along, this makes them want to help out eachother in a very good way. This also positively influences their communication

According to the PO as well, they're exceeding their expectations when it comes to making progress.

When a meeting is planned, the group does need to make sure to be there on time, not 5 minutes late.

Tom:

Is more focused than last sprint, as well as taking the lead more often. Should pay more attention to these points, though the group has to follow these guidelines:

- As soon as an agreement is made, like deciding when the next meeting will take place, let the team know as soon as possible and give as much details as possible as well.
- Stay more up-to-date when it comes to knowlegde about the progress made by teammembers (this will be solved/improved by making smaller tasks in jira and during the daily scrum meetings).

Niels:

Very helpful, getting more involved during meetings.

Bojidar:

Not that much changed, since there wasn't much discussed that should've changed. Still wants the best for the project, though causes less overthinking than last time.

Jessie:

Still quite easily distracted, though there has been some improvement when it comes to this.

Keano:

Was absent most of the time during the sprint.

This had a valid reason and was communicated with the group.

Lucas:

His cultural awareness is improving.

Still not too talkative, though improvement has been made.

Saeed:

Does not tend to take the lead as much. Very helpful.

Checkpoint 2 Retrospective 13-10-2022

Strijbos, Tom T.N.P. 3 months ago

Tom: Needs to step up as a leader, be a bit more harsh/direct. Could be a bit more focused. Knows how to behave professional when needed.

Jessie: Easily distracted during meetings. Lightens up the mood.

Lucas: Easily distracted during working, could be a bit more

involved/talkative. Meets the expected criteria

Saeed: tends to take the lead, can be quite assertive. Aware of the whole situation, very good programmer.

Niels: Could be a bit more involved during meetings, very good programmer.

Bojidar: Has a very clear opinion. Quite talkative. Wants the best for the project, but causes overthinking.

Keano: Easily distracted during working. Gets very involved during the meetings, which is nice.

The Dutch people tend to start dutch conversations, while not everyone can understand this.

Checkpoint 1 First session with partner Driessen 29-09-2022

Strijbos, Tom T.N.P. 3 months ago

Great work on preparing your questions for the first meet and greet with our Driessen partner. Your projectplan so far was good and you already are working ahead making good progress. Keep up the good work
