Checkpoint 10   **Maja**   10-01-2023

⚠ No feedback submitted.

Pesic, Maja M. (Teacher)   3 days ago
DEMO:
 - Looks very good at this moment, including chatting via web sockets.

Tests:
 - demo of several end2end tests (manually) showed that they work.
 - unit tests - are ok.

Checkpoint 9   **Jacco**   09-12-2022

Jacobs, Lucas L.L.G.T.   a month ago
Showed my progress in the front-end, CRUD for all admin, like/skip a person you want to travel with, Accept /delete a pending user, Login, Logout, Register and authorization for roles. Looked at a bug regarding updating information. Fixed now

---

Checkpoint 8   **Jacco**   18-11-2022

Jacobs, Lucas L.L.G.T.   2 months ago
Discussed the feedback of sprint 3. Showed testplan and looks good. Focussing on front-end. Back-end looks good. Continue how you are doing right now.

Checkpoint 7   **Jacco**   11-11-2022

Jacobs, Lucas L.L.G.T.   2 months ago
We discussed the progress of sprint 3, explained factory pattern. Maybe have a look at strategy patterns. Furthermore, explained what I am doing/ am going to do for this sprint. Everything looks fine.

We also discussed something about semester 4 regarding the choices that I can make.

Checkpoint 6   **Maja**   07-10-2022

Jacobs, Lucas L.L.G.T.   3 months ago
The applied research document is good for sprint 2. C4 architecture, everything was good except for the naming of some classes for the code architecture, changed it together. Site looks good, wornking get operation.

Checkpoint 5   **Jacco**   04-10-2022

Jacobs, Lucas L.L.G.T.   3 months ago
for the applied research: have a clear answer to the sub-question,
so a conclusion for around two sentences.
Furthermore, in the designdocument, updated c3 and approved.
Have a look at the planning regarding the research on the chat function.

Checkpoint 4   **Jacco**   30-09-2022

Jacobs, Lucas L.L.G.T.   3 months ago
I showed my progress of my applied research document, the main question was
approved and also the subquestion expect for one. Furthermore I need to think what I
am going to implement in my c3 architecture (so far only users). I have a working get
operation in react. Right now, I need to finish the applied research and continue with
the design document.

Checkpoint 3   **Ali**   29-09-2022

Jacobs, Lucas L.L.G.T.   3 months ago
I need to be more assertive towards my (technical) teachers and ask them for
feedback to fill in my checkpoints. I need to invest more time in technical subjects of
my interest and expand my development skills when there are no workshops for these
subjects.

Checkpoint 2   **Jacco**   06-09-2022
